- Simple to install and operate. Minimal end-user training required
- Provides the functionality of a full PC-based access control system
- Manage from the web browser on your computer or phone
- Backed by an industry leading **5 year** warranty
- Simple setup utility included
- 5,000 users, 8 Aperio locks
- **Note** – Only one MAP1 controller per system

APERIO WIRELESS LOCKS

Designed With Locksmiths In Mind

The MAP1 controllers can be provisioned with Webster firmware to create a total access control solution supporting up to 8 Aperio wireless locks. Just plug the controller into a wired LAN connection and use the web browser on your computer or phone to set up and manage your system. No software to install. The simplicity of Webster with the acknowledged benefits of wireless lock technology.

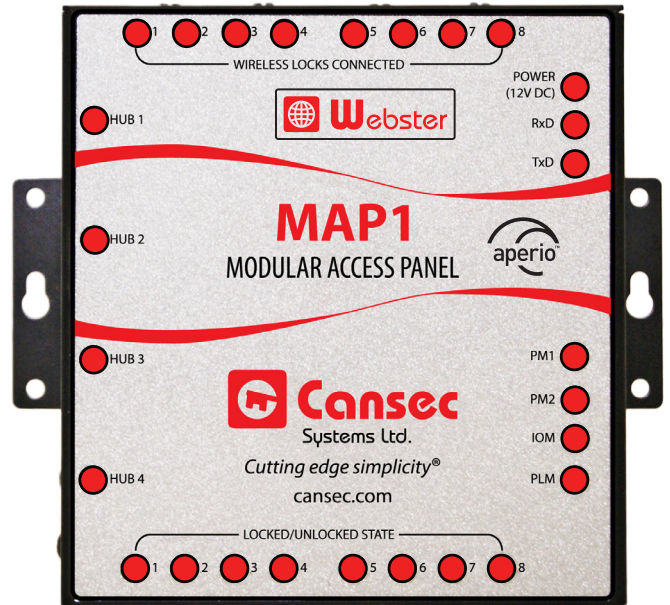

We know it is important to get in and out of a job quickly because time is money. Finding a suitable existing computer at a customer site can be very time consuming requiring consultation with the IT Manager or whoever fulfills this job. With Webster there is no software to install. Cutting Edge Simplicity at its best!
